

# Serialize out of the Cerealize Box

a drop-in replacement for ActiveRecord's serialize

```
class Cat < ActiveRecord::Base  
  serialize :can, Hash  
end
```

```
Cat.create( :can =>
             { :food => 'fish',
               :mood => 'dish' })
```

YAML

is a **human** friendly  
data serialization

YAML

is **not** a **machine** friendly  
data serialization

YAML

**SLOW** for machine

to the rescue

```
class Cat < ActiveRecord::Base  
  serialize :can, Hash  
end
```

```
class Cat < ActiveRecord::Base
  include Cerialize
  serialize :can, Hash
end
```

```
class Cat < ActiveRecord::Base
  include Cerialize
  cerialize :can, Hash
end
```

# Marshal Encoding

YAML  
JSON

# AUTO detection

Marshal Encoding  
YAML

AUTO detection

Marshal Encoding  
YAML  
JSON

conversion

AUTO

```
class Cat < ActiveRecord::Base
  include Cerealize
  cerealize :can, Hash,
            :encoding => :marshal
end
```

```
class Cat < ActiveRecord::Base
  include Cerealize
  cerealize :can, Hash,
            :encoding => :yaml
end
```

```
class Cat < ActiveRecord::Base
  include Cerealize
  cerealize :can, Hash,
            :encoding => :json #future
end
```

Try it Today!

gem install cerealize
